SUMMARY

I'm a software engineer with 3 years of experience in software development in JavaScript and on platforms including web-based, desktop, web services.

I've experienced in Javascript with framework SenchaExtjs or AngularJS and build web parts with it based on Sharepoint Platform (AngularJS) and using SPFx (with ReactJS and Fluent UI) to build in Sharepoint Online

Currently, I'm leader of FE teams (1 Fresher, 1 Intern) and improving my leader skills day by day

I've experienced in full software development life cycle on various types of model: Waterfall, Agile/Scrum

OBJECTIVE

Have more knowlegde to become a full-stack developer, improve management skills to become a teams leader in the next 1-2 year.

Looking for a dynamic and progressive company where my skills are utilized in the maximum way possible.
